

# Agenda

- 8:30-9:00 am Registration  
9:00-9:15 am Welcome/Introductions  
*Business Meeting*

9:15-10:30 am **Stage Safety**

*Craig Austin, Stage Services Company*

Stage inspections are important, but knowing about stage safety is even more important. Learn about maintenance, rigging equipment and proper training and what else to you need to know about your school's theater.

In April 2008, Craig formed Stage Services Company a division of Stagecraft focused on serving customers that already have an existing stage and their safety-based needs. Craig received a bachelor's degree in theatre technology from the University of Illinois. After living and rigging in NYC theatres and other theatrical hotbeds, he joined a national tour that ended on the West coast. Craig joined Stagecraft Industries in 1990, opened a branch office in 1995 in the Bay Area, and relocated to Portland in 1998 to accept the role of vice president of operations.

10:45-11:45 am **Fall Protection & OSHA updates**

*Ron Haverkost, Safety Technical Specialist*

Ron has worked for OR-OSHA for 14 years. He has been a senior safety technical specialist for the last three years and some of his specialty areas are construction, ladders, forklifts, fall protection, control of hazardous energy and machine guarding. Ron has also worked as a compliance safety specialist with OR-OSHA and accident investigation specialist and construction carpenter.

- 11:45 am-1:00 pm Lunch

## What's your issue?

*Group discussion*

1:00-3:30 pm **First 60 seconds of disaster**

*Wayne Bennett, Survival Skills & Co.*

Do you know what to do first in the event of disaster? Second? Learn what you should be doing in the first 60 seconds of a disaster.

Survival Skills & Co. began by specializing in emergency response training for schools in 1991 and has since trained over 30,000 people. It all began when Wayne Bennett, a professional firefighter and disaster preparedness coordinator, realized a need in the school community for a workshop on how to properly respond to disasters. As a fire captain, Wayne responds to hundreds of emergencies each year. He is a FEMA C.E.R.T instructor and a certified CPR and first aid instructor. Wayne has received other training including state certified fire officer, California Specialized Training Institute for Earthquake Management, terrorism response, urban search & rescue, avalanche rescue, high angle rope rescue, swift water rescue, Hazardous Materials and National Fire Academy incident command training.

July 26, 2011  
Riverhouse, Bend
